

**§ 370.62 What information may a State or local official request from a facility?**

The LEPC may ask a facility owner or operator to submit an MSDS for a hazardous chemical present at the facility. The SERC, LEPC, or fire department having jurisdiction over a facility may ask a facility owner or operator to submit Tier II information. The owner or operator must provide the MSDS (unless the owner or operator has already submitted an MSDS to the LEPC for that hazardous chemical) or Tier II information within 30 days of receipt of such request.

**§ 370.63 What responsibilities do the SERC and the LEPC have to make request information available?**

Under this subpart, the SERC or LEPC must make the following information (except for confidential location information discussed in § 370.64(b)) available if a person requests it:

(a) All information obtained from an owner or operator in response to a request under this subpart.

(b) Any requested Tier II information or MSDS otherwise in possession of the SERC or the LEPC.

**§ 370.64 What information can I claim as trade secret or confidential?**

(a) *Trade secrets.* You may be able to withhold the name of a specific chemical when submitting MSDS reporting or inventory reporting information if that chemical name is claimed as a trade secret. The requirements for withholding trade secret information are set forth in EPCRA section 322 and implemented in 40 CFR part 350. If you are withholding the name of a specific chemical as a trade secret in accordance with trade secrecy requirements, you must report the generic class or category that is structurally descriptive of the chemical along with all other required information. You must also submit the withheld information to EPA and must adequately substantiate your claim. A Form for substantiating trade secret claims is available at the Agency Web site at <http://www.epa.gov/emergencies>.

(b) *Confidential location information.* You may request that the SERC or the

LEPC not disclose to the public the location of any specific chemical required to be submitted in Tier II information. If you make such a request, the SERC or LEPC must not disclose the location of the specific chemical. If you use the Tier II Form to report your inventory information, you can choose to report confidential location information for a specific chemical on the Confidential Location Information Sheet, which must be attached to the other Tier II information you are reporting. Although you may request that location information with respect to a specific chemical be withheld from the public, you may not withhold this information from the SERC, the LEPC, or the local fire department. The Confidential Location Information Sheet is available on the Agency Web site at <http://www.epa.gov/emergencies>.

**§ 370.65 Must I allow the local fire department to inspect my facility and must I provide specific location information about hazardous chemicals at my facility?**

If you are the owner or operator of a facility that has submitted inventory information under this part, you must comply with the following two requirements upon request by the fire department with jurisdiction over your facility:

(a) You must allow the fire department to conduct an on-site inspection of your facility; and

(b) You must provide the fire department with information about the specific locations of hazardous chemicals at your facility.

**§ 370.66 How are key words in this part defined?**

*Chief Executive Officer of the Tribe* means the person who is recognized by the Bureau of Indian Affairs as the chief elected administrative officer of the Tribe.

*Environment* includes water, air, and land and the interrelationship that exists among and between water, air, and land and all living things.

*EPCRA* means the Emergency Planning and Community Right-To-Know Act of 1986.

*Extremely hazardous substance (EHS)* means a substance listed in appendices A and B of 40 CFR part 355.
